## ANATP/BNATP Monthly Update July 2021

- 1. *No student can be admitted to a BNATP or ANATP without a valid social security number.*** *There are no exceptions to this and no waivers!* This includes high school students even though high school students do not require background checks. Entries must be made in the HCWR for all students and this entry requires a social security number. Without an SSN, the student cannot take the certification exam because the INACE system requires one also. Taxpayer Identification Numbers (TIN or ITIN) cannot substitute for an SSN. The INACE system will recognize it as a TIN and will reject registration for those students.
- 2.** If you have an individual or a group who are certified to teach CPR and you are using them to teach only CPR, you do not need IDPH approval. An instructor code will not be issued. Put the individual or company name on the master schedule and check only CPR as the area of instruction.
- 3.** All programs must create entries into the HCWR to include training dates. If a student fails a program, you can leave the end date blank or use the last date they were actually in class.

As always, do not hesitate to call or email with questions.
