ANATP/BNATP Monthly Update September 2024

1. We have run out of four-digit numbers for instructor codes. Codes will soon be five digits starting with 10.
2. Height measurement cannot be removed from the skills list because it is a federal regulation. We cannot modify those. 42 CFR 483.152 (6) (b) (2) (ii)
3. Long-term care facilities have been introduced to Enhanced Barrier Precautions for residents with MDRO organisms or the potential for an MDRO infection. This applies only to long-term care facilities at this time, but for facility-based programs or those whose students ultimately work in long-term care, it is a good idea to review the pdf at the link below and incorporate it into your infection control education.
